

RUN & WALK FOR FARM ANIMALS

Plant-Powered Run

Since 1986, Farm Sanctuary's *Walk for Farm Animals* events have brought thousands of people together to celebrate the difference we can make when we put compassion first. Through this beloved tradition, Farm Sanctuary supporters have helped spread the word that **every farm animal is someone, not something** – and that

we can take positive steps to help these individuals when we align our actions with our values and make choices we can feel good about.

Farm Sanctuary is excited to announce a **new opportunity** to go the distance for farm animals with our *Plant-Powered Run*! This endeavor will **expand** upon our previous *Walk* events by introducing a **timed run** component – a great way to outrun cruelty with compassion and inspire change in the way society views and treats farm animals everywhere. Participants can run in our timed **10K event, 5K Fun Run** or **Walk!**

A Nationwide Movement in 2017
